

SUBJECT: HELPING MORE VOTERS VOTE

Hello,

Would you like a way to help everyone in your network vote faster, easier, and smarter?

BlueVoterGuide.org is the new, unique get-out-the-vote tool built by grassroots organizers for everyone. It's progressive, simple, and shareable—bringing along all voters, including hesitant first-timers, to make voting easier and fun.

**How does it work?** Go to [bluevoterguide.org](https://bluevoterguide.org), enter your address, and view your ballot—candidates, propositions, and judges—along with endorsements from progressive organizations. There's no cost and no tricks (we don't collect or distribute address information) and you can easily share your choices with family, friends, and social media.

Our web app is available now for battleground states: AZ, CA, FL, GA, NC, NV, PA, TX, WI. On desktop, laptop, tablet, or smartphone.

To learn more, please have a look at our brief video: <https://cutt.ly/BlueVoterGuideVideo>

Let's flex the grassroots muscles we've been developing since November, 2016. We can drive record-breaking midterm turnout by turning sample ballots into simple ballots.

Help get the word out by promoting Blue Voter Guide among your followers. Here's how: <https://bluevoterguide.org/ways-to-help/>.

We'd love to tell you more and answer any questions: [info@bluevoterguide.org](mailto:info@bluevoterguide.org).

In Unity,
